Objectives

I am seeking the position of 1st shift Lead.

Experience

Nascote, Nashville, Illinois

July 10, 2017 – still employed

As a member of the Labor Pool, I order all components, using KanBan, and place them on the production line. My job is to ensure the line has everything it needs to run. I am also called upon to train newly appointed labor pool and forklift drivers/order pickers. I operate a forklift to load racks onto the line, remove finished goods, and place them in shipping lanes. I observe the line running to minimize adverse effects on cycle times. Optimizing within standard work procedures goes a long way toward maintaining an end-of-shift efficiency of 90% or higher. When needed, I audit locations to ensure accurate inventory levels. When a quality issue arises, I am called upon to sort parts to help establish a clean point.

Innovative Staff Solutions/Nascote, Nashville, IL

September 15, 2015 – July 10, 2017

I was hired as a general production worker on the paint line, specifically on the loading side. Using a manipulator, I placed bucks on the line and loaded work-in-process parts onto them for painting. I also worked in the molding department, where I removed, trimmed, and racked work-in-process parts from the presses. I was later promoted to the Labor Pool.

Unique Personnel Consultants/Innertech, Nashville, IL

September 19, 2014 – September 15, 2015

I was hired as a general production worker and promoted to material handler. As a material handler, I kept inventory of components and switched tools in cells.

Education

Penn Foster College, Scottsdale, Arizona, Bachelor of Science in Business Management

3.50 GPA, Cum Laude

Penn Foster College, Scottsdale, Arizona, Electronics Technician Diploma
